PROFESSIONAL PROFILE

I am a Systems Analysis and Development student transitioning into the technology sector, with a focus on front-end development. I have skills in creating modern, responsive interfaces, structuring web pages using HTML5 and CSS3, and applying JavaScript fundamentals, programming logic, and code versioning with Git and GitHub. I also have prior experience in process organization, data analysis, and attention to detail—skills that strengthen my logical thinking, problem-solving abilities, and adaptability to the professional environment.

Personal Portfolio

Development of a responsive portfolio to showcase my projects, technical skills, and professional journey in the technology sector.

Technologies used: HTML5, CSS3, Git, GitHub, and Netlify.

PROJECTS

To-Do List

A web application for task organization featuring functions to add, complete, and remove items, designed to practice programming logic and DOM manipulation with JavaScript.

Technologies used: HTML5, CSS3, and JavaScript.

Web Interface Projects

Creation of web pages and visual components—such as cards, responsive sections, modern layouts, and landing pages—to practice front-end development.

Technologies used: HTML5, CSS3, and JavaScript.

Front-End

HTML5, CSS3, JavaScript, responsive design, layout creation, web page structuring, visual interface organization, and development best practices.

Version Control and Tools

Git, GitHub, VS Code, Netlify, and AI tools for learning and productivity.

TECHNICAL SKILLS

Additional Skills

Programming logic, understanding of APIs, requirements interpretation, code organization, and information structuring.

Currently Learning

Advanced JavaScript, API consumption, React.js, Python, and SQL.

EDUCATION AND CERTIFICATIONS

Applied Artificial Intelligence — 30h

Uniasselvi — 2026

Intermediate Office Suite

Raimundo Saraiva Coelho — 2018/2020

Administrative / Inventory Assistant

PREVIOUS EXPERIENCE

Experience with process organization, materials control, data analysis, internal support, operational assistance, and managing administrative tasks.

Through this experience, I developed key skills relevant to the technology sector, such as attention to detail, analytical thinking, accountability, communication, organization, and problem-solving.
